

## **business solutions @hrc supports Bishops Stortford Means Business (BSMB)**

THE 6<sup>th</sup> Bishop's Stortford Means Business Exhibition took place on Wednesday October 22 at the Rhodes Arts Complex. The exhibition provides a showcase for local businesses who need to promote their individual businesses to other businesses as well as the general public.

This year the number of exhibitors increased to 64 compared to 44 last year and the exhibition had several new features including a Careers and Training Fair area, where business solutions @hrc had a stand, and a Speed Networking event to encourage more visitors.

As well being able to talk to the leading suppliers of goods and services in the area, visitors were able to attend talks and seminars, all free of charge.

Seminars discussed how to prosper in the current economic environment and several business support organisations were on hand to give advice to anyone in business or thinking of starting one.

BSMB is now the major business event in the area and will continue to grow and be recognised for its value to the whole community.
